Claimant derived the Kalo land through his wife who derived it from her grandfather.

Hoopalahe sworn, says he knows the Kula land claimed by Hina in Hauula. It was cultivated in 1848 and 1849 but is not so now. Hina is preparing now to enclose this place. The land is bounded as set forth by the last witness.

(Postponed till tomorrow.)

Sept. 3, 1850

Kanealii sworn, says he knows the Kula land cultivated by Hina in 1848. In 1849 the cultivated was confined to a few watermelons which were destroyed by the horses. The part cultivated by claimant did not exceed one acre in extent. The boundaries claimed by Hina exceed by a great deal the portion cultivated. There were several other persons who planted things in this land as well as claimant. Some of these were Kaunele, Puhiikaika, Kaailaau, Kauikalima, Kamaka, Keoioi and Koekoe (on the boundary claimed being again read, witness confirmed his previous statement). Alapai the Subagent in February 1850 came and objected to their enclosing the land, as it would be depriving the Konohiki of his rights.

Kealoha sworn, says he knows the Kula land in question. Hina has cultivated a small portion of this land. Knows that a good many others have cultivated portions of this land. Thinks the part cultivated by Hina in 1848 did not exceed one acre. In 1849 he is doubtful if Hina had anything planted there at all.

(As there was much dispute about the Kula land, between the Konohiki and the claimant, the Commissioner G.M. Robertson proceeded to the spot and examined the land. It contains probably 5 acres and is enclosed by a stone wall on one side built lately. There are stones lying on that side of the land for building a fence. There is no cultivation on the land at present.)

L.G. Hopkins, King's Land Agent, objected to the claim for this Kula land, 1st because it is now entirely without signs of cultivation, 2nd Hina was warned by Alapai the Subagent not to enclose the land at the boundaries claimed by him, apigining as a reason that he would thereby take in the Konohiki's land, 3rd because it is not enclosed even up to the present time and 4th because a portion of the land is said to have been cultivated by other persons. (v. 10/12-13)

Hauula Sept. 4, 1850 (10/14)

8164 Hoopii (Awomau)

Kaneumi sworn, says he knows the House lot claimed by Hoopii in Hauula, it is enclosed on one side by the Hog wall. There is but one house on it which is occupied by the claimant. Claimant has held the place from six to ten years. The piece of Kula land claimed by Hoopii adjoining this Kahuahale is uncultivated, lying waste.

Koekoe sworn, says he has heard the testimony given by the last witness and believes it to be correct.

The King's Land Agent made no objection to this claim. (v. 10/16)

8438 Keawe

Kanealii sworn, says he knows the Kalo land claimed by Keawe in Hauula. It consists of 4 patches in one piece. There is but one patch planted at present, but they were all planted at the time the claim was sent in. The reason why some of the patches are not now planted is because the hogs destroyed a great part of the Kalo. This place is bounded on the South by Kaia's land, West by Kukue's land, North by a stream and the Konohiki, East by Waiaua's land. Keawe occupied the land for upwards of 20 years. The Kula land claimed by Keawe is lying waste and uncultivated and has been so for several years.

Koekoe sworn, says he knows the Kalo land claimed by Keawe and confirms the testimony of Kanealii in regard to it. Wahanui got the land from the Konohiki at the death of Keawe in 1848.

Kanealii reexamined says that after the death of Keawe, Wahanui had cultivated the patches. He planted the Kalo which is growing there now.

The King's Land Agent objected to the claim going to Wahanui as Keawe is dead and the land has reverted to the Haku Aina. (v. 10/17)

10261 Makalohi

Kaneumi sworn, says he knows the Kalo land claimed by Makalohi in Hauula. It consists of two patches which are distinct from each other.

Keoho died in the latter part of 1848. Kailieleele his granddaughter now has the claim.

Kanealii sworn says he knows the Kalo land of Keoho. It is as described by the last witness.

The King's Land Agent made no objection to this claim. (v. 10/21)

8356 Kane

The King's Land Agent Mr. Hopkins objected to the claim for the first piece as it was cultivated by the Konohiki's labor. (v. 10/26)

10972 and 10975 Waiauaia

Claimant withdrew this claim 10972. It was drawn up by another person for him and was intended to provide for the extinction of natives rights in the forest.

Kaailaau sworn, says he knows the land of Waiauaia in Hauula. There are 3 pieces.

1st piece contains 4 Kalo patches and is bounded East by Keawe's land, South by the Kula land, West by the Konohiki and Makalohi's, North by the Konohiki.

Kaailaau sworn, says he knows the Kalo land of Koekoe in Hauula. There are two separate pieces.

1st piece contains 4 Kalo patches, bounded on the North by Kaoho's land, East by the land of Kananelu and Kekio, South and East by Kula land of the Konohiki.

2nd piece contains 6 Kalo patches, bounded on the North by Kula land of claimant, East by the stream, South by Kananelu's and Kaiaia's land, West by Kula land.

The Kula land claimed by Koekoe is bounded on the North by the stream, East by Kula land claimed by Hina, South by claimants Kalo land, West by the Konohiki. One side only of this land is enclosed. It was formerly enclosed by a wooden fence, now gone. It is not now in cultivation, but was cultivated by Koekoe from 1841 down to 1849. Claimant has held these lands since he was a boy. Witness knows the House lot of Koekoe. It is bounded North by the sea beach, East by the river, South by the river and Lauhala trees, West by Kamooilili's House lot. It is enclosed by a stone wall.

Kaneumi sworn, says he knows these lands of Koekoe and confirms the testimony of Kaailaau.

Kanealii sworn, says the Kula land claimed by Koekoe adjoins that claimed by Hina, a portion of it only was cultivated in 1848. No part of it was cultivated in 1849. Never saw the whole of this land under cultivation at once. Up to 1848 any Kanaka might go there and plant who

wished to do so. This is the place where Alapai forbid the building of a fence last February. It was formerly enclosed by a wooden fence. This fence was built by Koekoe and Hina together.

Kaailaau reexamined says the people stated by Kanealii to have cultivated this land were employed by Koekoe who reaped the benefit of the cultivation. The greater part of the land was cultivated in 1848 and 1849. Some of the men who worked for Koekoe were Keoioi on the side next to the stream, Kahanaumaikai, Kaailaau and the balance by Koekoe himself in 1848. This Kula land was formerly held by Koekoe's father who died in 1841.

G.P. Hopkins the King's Land Agent, objected to the claim for Kula land, 1st because it is entirely without signs of cultivation. 2nd because it is not enclosed. 3rd because they were advised by Alapai, the Sub-agent, not to take in that land to the prejudice of the Konohiki.(v. 10/28)

8174 Hoaai

Kaneumi sworn, says he knows the Kalo land of Hoaai. It consists of two patches forming but one piece.
